To Whom It May Concern:

I am pleased to write this letter of recommendation on behalf of Waynflete School for David Cimino and Santo Cimino, of Stroudwater Construction, Inc.

David and Santo have long standing connections with the Waynflete community in both their professional and personal lives. They have provided high quality construction services and advice on a number of large and small projects ranging from the construction of the first phase of our Arts Center several years ago to building offices and reconfiguring a heating system this past summer to assisting us (at no charge) in determining appropriate building values for insurance purposes. Stroudwater Construction was also approved by our Board of Trustees to be the construction manager for the next phase of the Arts Center which will involve building a state-of-the-art theater and a gymnasium once fundraising is sufficiently complete.

Construction at Waynflete is often made more difficult since the School is within a Historic District and therefore must comply with Historic Preservation requirements. Further, since it is critical that our buildings meet our academic program needs first and foremost, there are often changes and accommodations that need to be made during the construction process. On every project, David and Santo have worked closely with our faculty, staff, trustees, and architects to ensure that the buildings and spaces meet the School's needs and city requirements.

David is also an alumnus of Waynflete and Santo was a parent and trustee for many years. I mention this to emphasize that the School's relationship with them is built not only on their construction management abilities but on our knowledge of their work ethic and character.

We recommended them whole-heartedly; the Head of School, Mark Segar, and I would be pleased to answer any questions you might have.

Sincerely,

Anne C. Hagstrom
Director of Finance and Operations
